Re: Case#90260235/Citation number KV50993 - issued 08-03-99 by Officer Messing,#10914

Dear Mr. Quigley:

The California Highway Patrol (CHP) has received your Informal Discovery Request for items related to citation number KV50993. You requested the following items under section 1.:

- a) Copy of the reverse side of the citing officer's copy of the above referenced Notice To Appear, if the citing officer has made any notations on it: **Attached**
- b) The names and addresses of all prosecution witnesses who will testify at trial. At this time, Officer J. Pedro, #12918, Gilroy CHP Inspection Facility, 12000 South Valley Fwy., San Martin, CA 95046, could be a potential witness.
- c) A copy of any and all documents, or other evidence, that shows that the defendant had actual knowledge that there had been a determination of noncompliance, by an independent testing laboratory, with Federal Motor Vehicle Safety Standard 218 on the item the defendant had on his head at the time the officer issued citation #KV50993. This is very vague in scope. Additionally, an infraction as you have been charged with under the California Vehicle Code, does not require specific intent or knowledge; only that the crime has been committed.
- d) A copy of all training materials, directives, statues, memos, bulletins, or any other publication which serve as the standard by which you determine what constitutes a helmet. Santa Cruz Area is not the "Custodian of Publications" for this information. In order to attain this information, you must contact the CHP's Publications Unit at 860 Stillwater Road, W. Sacramento, CA 95605-1649.
